

# 2026 Kawartha Lakes Municipal Calendar

Kawartha Lakes  
2001 • 2026 

# Waste management services and collection schedule

## Clear bags are required for waste collection in Kawartha Lakes

- 40 lb/18 kg maximum per bag.
- Recyclables and organics waste (where program exists) must be properly sorted out of the garbage stream to be eligible for collection.

## Recycling and waste collection zones

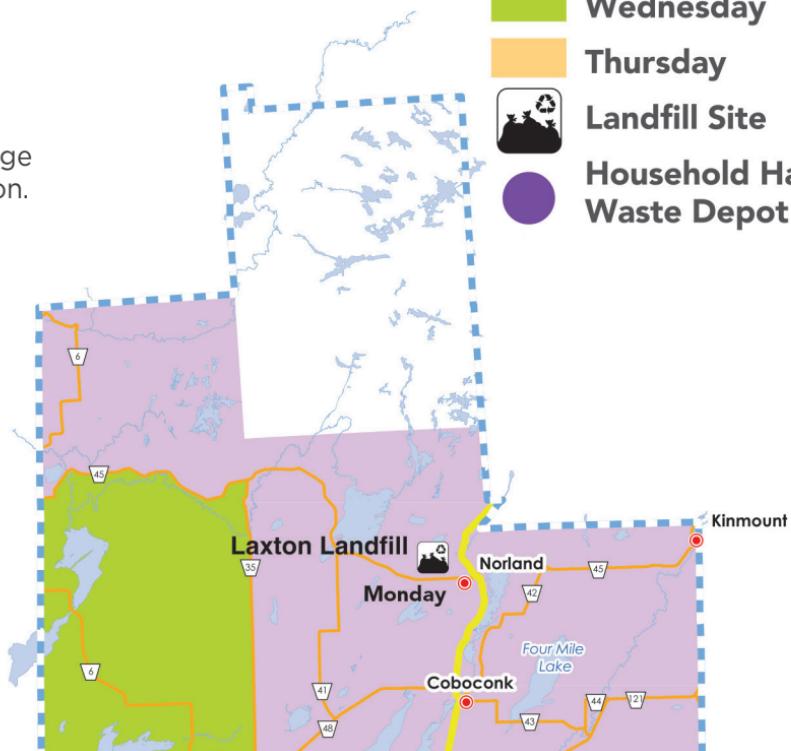

Find your location on the map to identify your recycling and waste collection day. **Ensure items are at the curb by 7am.**

## Landfills

Take your recycling and waste to one of our five landfill locations (see page 29). For more info, such as tipping fees, please visit [www.kawarthalakes.ca/landfills](http://www.kawarthalakes.ca/landfills)

# January • 2026

## Important changes to your Recycling Collection Program starting January 2, 2026

### Meet your new recycling collector — Emterra

Starting in January, you'll see some new trucks in your neighbourhood picking up recycling on your regular waste collection day. Miller will still be collecting your garbage, so both garbage and recycling will continue to be picked up on the same day.

**Reminder:** Commercial businesses are not included in the new curbside recycling collection program. Businesses are encouraged to make plans to hire a contractor to collect their recycling or bring it to one of the City's landfills (tipping fees apply).

Getting your recycling to the curb by 7am (6am in downtown areas) will ensure it is collected. If you need to report a missed recycling collection, please call Emterra (1-888-597-1541) or Circular Materials Ontario (1-877-667-2626). You can also download the Recycle Coach app for Circular Materials by scanning this QR Code.

# February • 2026

Obbie (short for Organics Bin Boss) wants to say thank you! Since introducing the organics program in January of 2025, we have collected over 1,000 tonnes of **organics** from our four urban areas of Bobcaygeon, Fenelon Falls, Lindsay and Omemee. This organic waste is being processed at a local anaerobic digester to create energy and soil amendments.

## Organics Program Updates

Important updates to the Source Separated Organics (SSO) program are coming in June 2026 including:

- **Organics collection moving to your regular waste collection day.**
- **No organics permitted in garbage bags.**
- **Garbage bag limit of one bag per household.**

Additional garbage bags can be set out with a bag tag, available for purchase at Municipal Service Centres and libraries, and online at [www.kawarthalakes.ca/curbsidetags](http://www.kawarthalakes.ca/curbsidetags).

For full program details, collection schedules, and information on what goes where, visit [www.kawarthalakes.ca/organics](http://www.kawarthalakes.ca/organics).

## Garbage Collection Refreshers for 2026

Follow these tips for the safety and efficiency of our Miller Waste Collectors:

- Waste must be set out in clear bags and weigh less than 40lb (18kg).
- Recyclables and organics waste (where program exists) must be properly sorted out of the garbage stream to be eligible for collection.
- Garbage and organics should be to the curb at 7am (6am in designated downtown areas) and remain there until 7pm to ensure collection. There is no “usual” pick-up time.
- Waste storage bins must have a flagging device (similar to a mailbox) to alert collection staff that there are materials inside to be collected.

## Report Illegal Dumping

If you do come across areas littered with garbage or hazardous waste, log in to your Service Hub account at [servicehub.kawarthalakes.ca](http://servicehub.kawarthalakes.ca) or call 705-324-9411 to report it.

## Missed Collection

If you need to report a missed garbage collection, contact Miller Waste (1-888-557-4711 or [kawarthalakes@millerwaste.ca](mailto:kawarthalakes@millerwaste.ca)) or use our Recycle Coach app.

Properly maintained roads are an important part of collection schedules. For private, seasonal or unassumed roads, if a collection driver deems the road unsafe for travel, waste will not be collected. All roads must follow the standards outlined in the Collection and Management of Waste By-Law to receive collection. Please keep the following in mind to avoid any delays in service:

- Have the road plowed to a minimum of 4m/12ft wide.
- Sand or salt the road when needed.
- Make sure vegetation is cut back to a minimum of 5m/15ft high and 4m/12ft wide.
- Fill and grade potholes when needed.
- Provide a suitable turnaround area for the collection truck.
- Waste storage bins must have a flagging device (similar to a mailbox) to alert collection staff when there are materials inside to be collected.

Seasonal collection resumes May 4 and ends October 30. For any questions regarding collection on private, seasonal and unassumed roads, please visit the Residential Waste Collection page at [www.kawarthalakes.ca/waste](http://www.kawarthalakes.ca/waste).

Our municipality offers curbside collection programs to help you divert as much waste from landfills as possible.

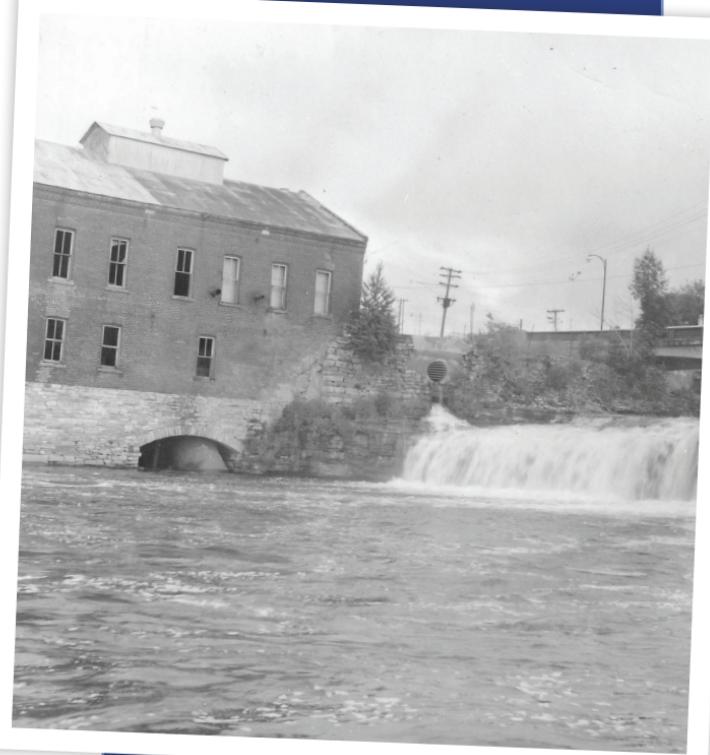

The following free special collection events happen twice a year:

- Curbside battery (March and November)
- Curbside leaf and yard (June and November)

We also offer curbside pickup of large items (old appliances, furniture, electronics, toilets, etc.), freon appliances (fridge, air conditioner, freezer, etc.), and mattresses/box springs with the purchase of a curbside tag.

You can buy tags online at [www.kawarthalakes.ca/curbsidetags](http://www.kawarthalakes.ca/curbsidetags) or visit one of our Municipal Service Centres or libraries to buy them in person.

Once you've bought your tags, all you have to do is call or email Miller Waste (1-888-557-4711 or [kawarthalakes@millerwaste.ca](mailto:kawarthalakes@millerwaste.ca)) to arrange pick up of the items.

## Round Up Day Events

Round Up Day events are for residents to drop-off household hazardous waste, textiles, bulky plastics and electronics for recycling **free of charge**. Commercial hazardous waste (produced by a business), mattresses, and freon units will not be accepted at our Round Up Days.

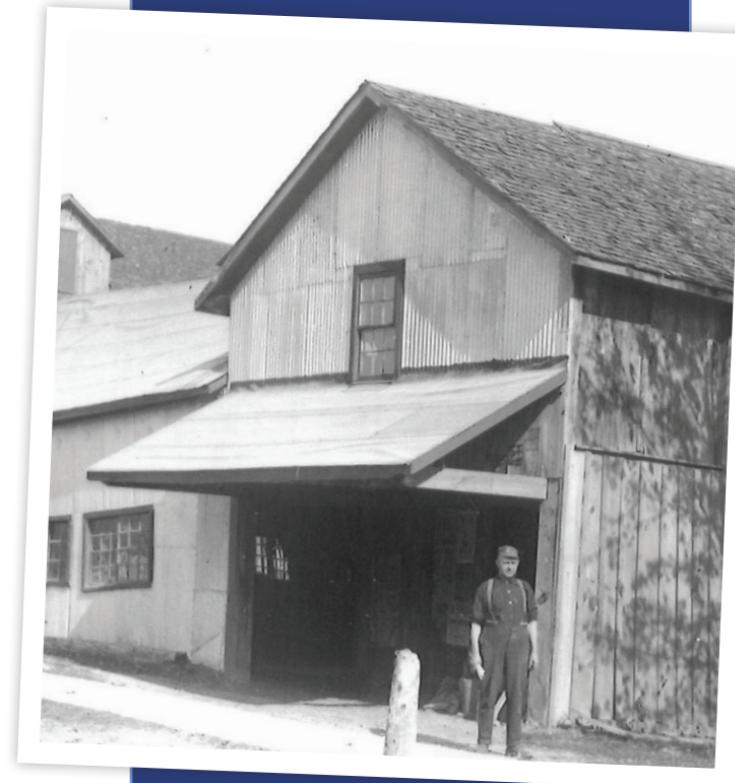

Our Round Up Days, hosted by Waste Management, are occurring this summer on these four dates:

- Carden Round Up Day — Saturday, June 20
- Manvers Round Up Day — Saturday, July 25
- Bobcaygeon Round Up Day — Saturday, August 15
- Coboconk Round Up Day — Saturday, August 29

For all information about Round Up Days, including a full list of what you can dispose of, visit [www.kawarthalakes.ca/roundupdays](http://www.kawarthalakes.ca/roundupdays).

## Battery Disposal

Lithium-ion batteries are found in many rechargeable devices we use everyday (phones, laptops, tools, toys, etc.) and can pose a serious risk of fire when not disposed of properly. These items can be brought to any of our Round Up Events or the Lindsay or Fenelon landfill hazardous waste depots to be disposed of properly and safely.

Trying to get rid of summer items like plastic pools, garden hoses, and fishing lines, but don't know what to do with them? If you're headed to the landfill, we want you to have a smooth experience. **Know before you go** by checking out our landfill camera for lineups: [www.kawarthalakes.ca/landfills](http://www.kawarthalakes.ca/landfills).

Follow these steps when visiting our landfills:

- Report to the scale house and follow attendant instructions. Please follow all signs and directions.
- Ensure your waste is loose or in clear bags (black or opaque bags will be charged at a mixed load rate).
- If you don't know where a certain material goes, ask a landfill attendant for help.
- After you drop off your material, return to the scale house to weigh out and get your receipt. Always cross the scales; we like to capture the weight of the materials you're leaving behind.

Kawartha Lakes has a **zero-tolerance policy** for violence or harassment. Unruly behaviour will not be tolerated and could result in tipping privileges being revoked.

Finally, be sure to thank the staff for the amazing job they do in keeping Kawartha Lakes green!

## October is Circular Economy Month

Circular Economy Month is about establishing a more sustainable system for materials to be used as long as possible. We can do that by looking beyond the traditional 3Rs (Reduce, Reuse, Recycle) and including Rethink, Refuse, Repurpose, and Repair as part of our waste philosophy.

In 2025, Kawartha Lakes was the recipient of Quantum's Circular21 award, recognizing organizations that achieve top greenhouse gas emission savings through reuse and recycling of electronics. Some of our circular programs include:

- Textile collection
- Promotion of local reuse opportunities
- Source separated organics diversion
- Electronics recycling
- Hazardous waste — paint reuse program
- Construction demolition, mattress, and bulky plastics recycling

These programs help make sure that valuable resources are recovered and disposed of in a safe way, while taking important steps to minimize waste and promote a healthy community.

Visit [www.kawarthalakes.ca/diversion-programs](http://www.kawarthalakes.ca/diversion-programs) for more information on how you can help divert material from our landfills.

# November • 2026

We are excited to announce that in 2025, Council adopted the Integrated Waste Management Strategy update (2025-2029). Thank you to all the residents and businesses who gave input on what programs matter most!

With the shift in responsibility for the Blue Box program, the municipality is changing how we measure the success — focusing on waste reduction targets instead of the waste diversion rate. Our new goals are:

- Reduce annual residential waste generated per capita by 12% or from 283 kilograms per capita to 249 kilograms per capita between 2025 and 2029; and
- Reduce the total annual waste disposed in the City by 6% or from 50,700 tonnes to 47,500 tonnes by 2029.

We look forward to expanding and increasing our waste reduction efforts to include more options for you! To read more about our waste management strategy visit the **Waste Education** page at [www.kawarthalakes.ca/waste](http://www.kawarthalakes.ca/waste).

As severe weather events become more frequent, preparing for collection disruptions is essential. Heavy rain, flooding, snow, and high winds can delay regular pickup schedules. While we can't control the weather, we will do our best to communicate any waste collection delays as early as possible.

Stay alert by checking the website, Recycle Coach or local alerts. By securing your bins and being prepared, collection services can stay efficient! If your waste is missed, the following will apply:

- **Missed garbage:** Your next waste collection day will be a double garbage day. The bag limit is doubled for the week.
- **Missed organics:** Bring your missed organics back inside and then bring them back out the following week for collection.
- **Missed recycling:** Bring your missed container/fibre recycling back inside and put it out in two weeks on your next container/fibre collection day.

For more information, visit the **Waste Collection Delays** page at [www.kawarthalakes.ca/waste](http://www.kawarthalakes.ca/waste).

# Landfill locations

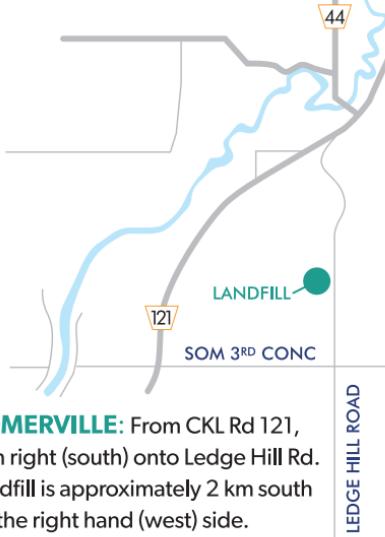

There are five landfills in Kawartha Lakes:

**LINDSAY:** North-east of Lindsay, off CKL Rd 36. Going north, turn left (west) onto Wilson Road (at first bend past the correctional facility). Landfill is 0.5 km on the left hand (west) side.

**Address:** 51 Wilson Road

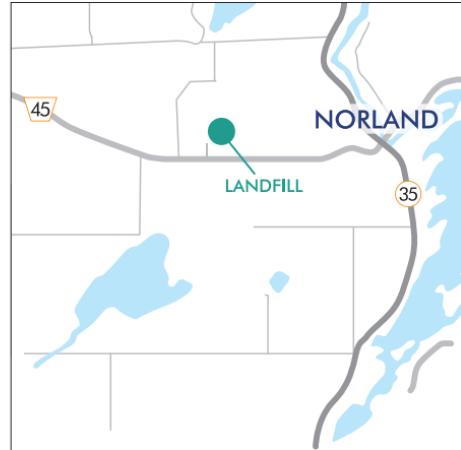

**BURNT RIVER**

**SOMERVILLE:** From CKL Rd 121, turn right (south) onto Ledge Hill Rd. Landfill is approximately 2 km south on the right hand (west) side.

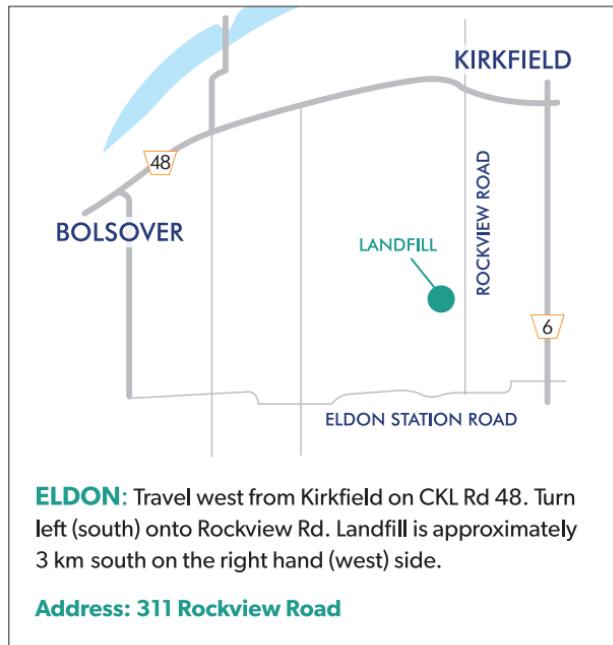

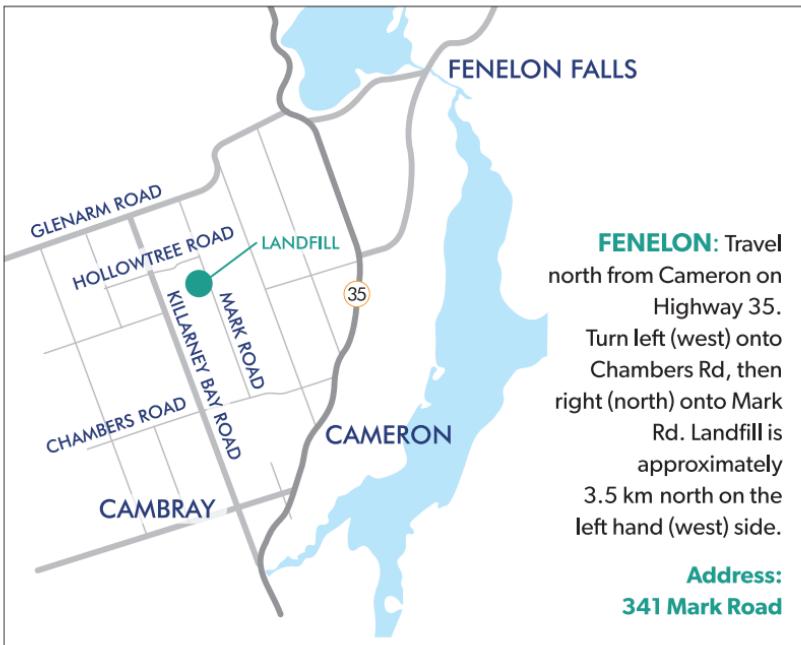

**Address:**  
381 Ledge Hill Road

**NORLAND**

**LAXTON:** Located on CKL Rd 45, approximately 2 km west of Norland on the right hand (north) side.

**Address:** 3225 Monck Road

## To ensure your visit to a landfill is quick and convenient:

1. Stop at the scale house on arrival for instructions
2. Follow instructions carefully (ask again, if necessary)
3. Pay attention to all site signage
4. Once material drop off is complete, return to the scale house to check out

**When not in operation, access to landfill sites is restricted. Charges for trespassing will be laid.**

# Landfill Hours

**Summer Landfill Hours • May 1 to October 15 •** Hours may be subject to change based on operational requirements. All landfills are closed Canada Day. Lindsay Landfill is also closed Holiday Mondays (Victoria Day, Civic Holiday, Labour Day and Thanksgiving).
