

**Notice of Study Completion
City of Kawartha Lakes
Municipal Class Environmental Assessment and Design
for the Reconstruction of Angeline Street North**

The City of Kawartha Lakes has retained Ainley Group to complete design activities and undertake the Municipal Class Environmental Assessment (MCEA) process in support of the proposed reconstruction of Angeline Street North within the community of Lindsay. The section of Angeline Street North to be reconstructed is between Colborne Street West and Roosevelt Street, and includes intersection improvements at Angeline Street North and Kent Street West, and Angeline Street North and Colborne Street West.

The preliminary and detailed design activities for Angeline Street North were initiated as a Schedule 'B' undertaking, as per the MCEA, to address the proposed reconstruction. As part of the study, information provided from background studies was reviewed and assessed and alternative solutions were conceptualized. The alternative solutions were evaluated for potential impacts to the natural, cultural, social, and economic environments. Resultingly, the preferred alternative for the proposed road reconstruction was determined.

Public Information Centres (PICs) were held on February 28, 2019 and May 9, 2024. The first PIC was to provide background information, identify the alternative solutions, and answer questions regarding the project. The second PIC was to provide information regarding the evaluation of the preferred alternative determined for the reconstruction of Angeline Street North.

The Environmental Assessment for this Schedule 'B' project is documented in a Project File Report, which is now available for review. Physical copies of the Project File Report are available at the following locations for review

City of Kawartha Lakes – Clerks Office
26 Francis Street
Lindsay, ON K9V 5R8

Lindsay Library
190 Kent Street West
Lindsay, ON K9V 2Y6

A digital copy of the Project File Report is also available for location at the following web address: <https://www.kawarthalakes.ca/government-administration/major-projects/lindsay>

The 30-day review period begins on **November 13, 2025**. Written comments may be submitted until **December 13, 2025** to:

Mr. Corby Purdy, LL, C.E.T.
Manager, Infrastructure Design and Construction
City of Kawartha Lakes
12 Peel Street
Lindsay, ON K9V 5R8

If concerns regarding this project cannot be resolved in discussion with the City of Kawartha Lakes, a person/party may request that the Minister of Environment, Conservation and Climate Parks (MECP) make an order under Section 16 of the Environmental Assessment Act. This request must be received by the Minister and Director of the Environmental Approvals Branch (at the addresses noted below), with a copy to the City of Kawartha Lakes prior to the end of the review period. If there are no requests received within the 30-day review period, the project will receive clearance, and may proceed to design and construction, dependent on available funding.

Minister of the Environment, Conservation and Parks
MECP
777 Bay Street, 5th Floor
Toronto, Ontario M7A 2J3
Email: Minister.mecp@ontario.ca

Director, Environmental Assessment Branch
MECP
135 St. Clair Avenue West, 1st Floor
Toronto, Ontario M4V 1P5
Email: EABDirector@ontario.ca

Information collected will be used in accordance with the *Municipal Freedom of Information and Protection of Privacy Act* and the *Environmental Assessment Act*.
