Date: 2026-04-14

Subject: City of Kawartha Lakes Response to Question Received on April 1, 2026, Public Information Centre

At the April 1, 2026, Public Information Centre for St George Street, there was one (1) formal question received from a resident that resides at 31 St George Street. The question is listed below:

“Requesting a catch basin or ditch inlet west side of sidewalk at 31 St George Street. Have a serious water problem from the Northwest properties”.

The City of Kawartha Lakes has provided the following response to WSP which has been noted below:

“The reconstruction project will include a storm sewer connection, extended to the property line with an area drain structure, to help mitigate the drainage concerns raised by the homeowners at 31 St. George and 140 Queen Street”.
